PAINT REMOVER

BO100.00.0000

Read the technical data sheet

PRODUCT DESCRIPTION

BO100.00 is a solvent based, paint remover.

FEATURES

- Very good penetration
- Fast paint removal feature
- Easy application

RECOMMENDED USES

Stir

To be used for emulsions and synthetic paints, lacquers and plastic coatings, oven and polyurethane paints, cellulosic, acrylic and auto paints. It can be used on both horizontal and vertical surfaces.

PRODUCT SPECIFICATIONS

Product Type	**:**Solvent
Viscosity (25°C, KU)	**:**90 - 105
Specific Gravity (kg/l)	**:**1,15 - 1,22
Recommended Application Weight (g/m²)	**:**200 - 450 (for one coat)

It depends on application method, seasonal conditions and surface properties.

Apply with brush

COLOR & GLOSS OPTIONS

Color	**Color Code**
Viscous opaque liquid	0000

SURFACE PREPARATION

The surface should be sanded with P80 sandpaper. This process speeds up the penetration of the product into paint and makes removal of the paint easier.

APPLICATION

It is applied in thick coats on old paints. Since the remover is volatile and in order to provide more penetration, it isrecommended to cover the surface with paper (e.g. newspaper) immediately after the application. After 5-20 minutes from the application of the remover, softened and swelled paints should be removed by using a spatula and then the surface should be cleaned with cellulosic thinner (TN200). If the paint is very thick it can be applied again. Application should not be carried out on hot weather.

Note: The application areamust be well wentilated. Direct exposure to solvent vapors or orders should be avoided. Protective mask,goggles and gloves must be used.

Application Equipment

Brush

STORAGE & HANDLING

Store in a cool, dry place and away from heat.

Close all containers after use.

Shelf life is 1 years if stored under specified conditions.

Data provided on this Technical Data Sheet correspond to our best knowledge and experience. We assure consistency on the chemical-physical characteristics of our products, within the tolerance limits specified on our Technical Data Sheets. Responsibility of final result of product application is fully up to the users, who shall make sure that the product corresponds to their own needs with regard to application system, to substrates used as well as to working conditions.
